

Terra Linda - North San Rafael Improvements

Project Number: 2004

PROJECT COMPLETED OCTOBER, 2012

LOCATION

Generally along Freitas Parkway from Del Ganado Road to Del Presidio; Civic Center Drive (San Rafael)

FUNDING SOURCES

NTPP \$289,300

COMPLETION DATE

October, 2010

PROJECT DESCRIPTION

This project implemented several recommendations from the North San Rafael Vision Plan. Along Freitas Parkway this includes installation of Class II bicycle lanes, sidewalk improvements, and enhancements at selected intersections to improve cyclist and pedestrian circulation between Del Ganado Road and Las Gallinas Avenue. Recent but separate improvements undertaken as part of redevelopment of the mall include construction of a Class I multi-use pathway along the mall's Las Gallinas frontage and improved sidewalks along Freitas Parkway and Northgate Drive in front of the Northgate One shopping center.

The remainder of the corridor, continuing to the Civic Center via Merrydale Road and Civic Center Drive does not have specific improvements identified. However, construction of the SMART path in 2013 and new Civic Center station will work towards improving connectivity in the area along the railroad tracks between McInnis Parkway and North San Pedro Road, including passage under the freeway. Additional improvements in the corridor will need to be evaluated for feasibility and construction in the future.

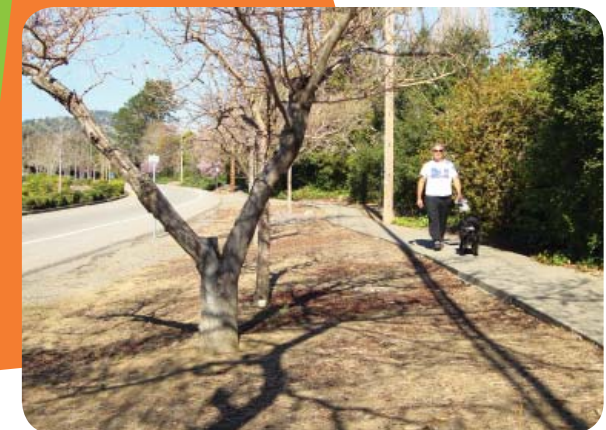

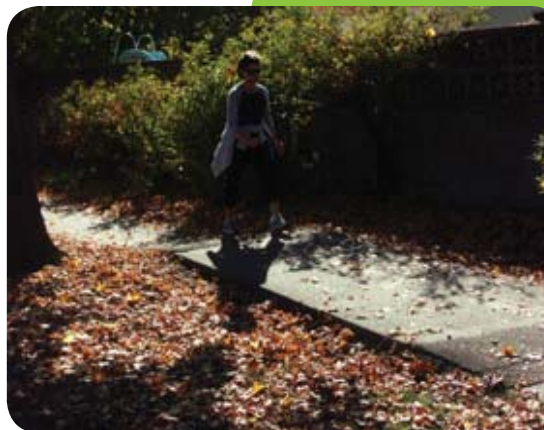

POINTS OF INTEREST

The project area is an east-west corridor across the Santa Margarita Valley, linking Terra Linda with Santa Venetia and key activity nodes in between, including the Civic Center, Northgate Mall, and neighborhood centers including Northgate One and Scotty's Market.

STATUS

Construction Complete

Revision Date April, 2012
